Subject: RE: For TCT next Wed at 0930 EPA-OOO: Updated Appendix B1 and B2 for TCT meeting materials

Gail,

To follow up: EPA did receive your review of our responses to the Five Tribe's comments on Appendix B1. Since they related to the original comments, we didn't further revise the RTCs. The version of Appendix B1 and B2 included in my Jan 8 2014 email were for reference, and the RTCs represent the most current record of proposed changes. We agree that the TCT discussions are best focused on technical/substantive issues identified with the proposed FS sections. Since the original comments were editorial in nature, EPA will consider them as appropriate when finalizing the text. Please note that since these revisions have not yet been shared and discussed with the LWG, they do not represent the final version, and additional revisions are likely.

Let me know if this causes any concerns --and talk to you Wednesday.

Thank you.

Hi Sean. I wanted to check in with you prior to the TCT meeting about Appendices B1 and B2. I think the 5 Tribes' comments were adequately addressed for B2. Regarding B1, at last month's TCT meeting, I circulated our responses to EPA's responses to our comments. It doesn't look like the Appendix B1 that you sent last week reflects any changes based on those "responses to responses". If EPA has already reviewed them and has decided not to incorporate them, then I'm not sure that it would be worth taking up valuable meeting time to review them, as I think our comments are largely self-explanatory.

Could you confirm that you received the email I sent on 12/10/14 with the 5 Tribes responses to EPA's responses to our comments, that you reviewed them, and that you do not plan to make any changes based on them?

Thank you.

Gail

Subject: For TCT next Wed at 0930 EPA-OOO: Updated Appendix B1 and B2 for TCT meeting materials

Hello everyone, Please see the attached draft responses for reference in our discussions next week during the TCT. Suggested changes to the agenda always welcome.

Thank you.
